

**PROFESSIONAL  
SERVICES FOR  
INDUSTRIAL  
EXPERTS**

# SUPPORT AND SOLUTIONS

**Industrial Services is a true global provider of technical inspection, verification, testing and conformity assessment services for industrial markets. The core values of complete independence, transparency and integrity guide us in our mission to deliver first-class services on a constant high quality level to customers around the world.**

**TO BE**

# TRUSTED

#### **Our key strengths**

- We are fully backed by the extensive resources of the SGS Group, the world's leading provider of verification, inspection, testing and certification services
- Our teams of professional engineers and technicians work across all industrial sectors
- Safety, quality and reliability are our top priorities during design, construction and operation
- SGS works according to national and international standards and is accredited by numerous accreditation bodies
- Our customers are assigned a local contact person with access to global experience and resources

**Everything we do is based upon the principle of mutual trust.**

**As our customer, you can rely upon our extensive experience and wide-ranging network, and you can be certain of rapid assistance and practical expertise. Our skilled professionals add value through their in-depth knowledge of your business sector, helping you to manage or reduce risks faced by you or your customers with regard to a specific commercial situation or transport and production processes.**

**INDUSTRIAL SERVICES GOES THE EXTRA MILE,  
WORKING CLOSELY WITH YOU TO FIND THE  
OPTIMAL SOLUTION FOR YOUR SPECIFIC  
SITUATION OR REQUIREMENTS.**

# PROVEN

# PERFORMANCE, GENUINE INTEGRITY

**With decades of experience and excellent references in all key industrial markets, Industrial Services employs only the best-qualified, recognised experts available. Our many national, international and customer-specific accreditations testify to our expertise.**

**Industrial Services provides**

- Supply Chain Services
- Statutory and Voluntary Inspections
- Material Testing and Non-Destructive Testing
- Product and Import Certification
- Reliability Services and Integrity Management
- Technical Training and Consultancy
- Technical Staffing

**We provide our customers with all the objective information they need to effectively assess performance, enabling them to make better and faster decisions. Each of our professionals is committed to creating a relationship of total trust with you, giving you full confidence in our people and our services.**

**Industrial Services also**

- Assures products, constructions or installations meet all relevant quality and performance requirements, from the customer's own to voluntary or regulatory specifications
- Reduces the complexity of processes, resulting in a better quality of assets
- Improves health and safety conditions for employees and minimises the environmental impact of activities
- Provides technical solutions that add value to support growth strategies in existing markets and new ones, wherever they may be

# A TRUE

# GLOBAL SERVICE INTEGRATOR

**Industrial Services offers a comprehensive package of integrated services, combining specialised solutions and traditional services, based on the complete life cycle of customers' assets and encompassing every key stage, from design through construction and commissioning to operation.**

- Our professionals operate at every stage of the industrial supply chain and in all major industrial areas of the world, working for manufacturers, engineering companies, contractors, suppliers and trading companies, as well as investors, insurers and owners
- We offer expertise in a wide variety of market segments, including
  - Power generation and transmission
  - Process industry and LNG terminals
  - Onshore/Offshore pipelines
  - Offshore installations
  - Construction of buildings and infrastructures
  - Transportation and logistics
- We also provide more specialised and integrated activities, such as
  - Risk based inspection
  - Condition monitoring of plant and equipment
  - Design appraisal for industrial plants
  - Notified body services for European directives, such as the Pressure Equipment Directive (PED), the Machinery Directive and the ATEX Directive
  - Consultancy services such as Quality Assurance/Quality Control, Health, Safety & Environment

**Customers prefer doing business with us because our technical and industrial market expertise makes us the best solution provider for their complete business. Our extensive backing and decades of experience enable us to supply advice, services and solutions that deliver important tangible benefits for your company and, in turn, your customers.**

## CONTACT US
